to accelerate to develop our own environmentally conscious products development. We will start to use the system from FY2018 and promote the creation of environmentally conscious products and the disclosure of their information.

Priority Issue 2

Target for 2030

- (1) Reduce the amount of water the Fujifilm Group uses for production by 30% by FY2030 (compared to the FY2013 level).

Since our establishment, the Fujifilm Group has been actively recycling resources, through reducing water usage, recycling and reusing water, recovering and reusing resources (e.g. silver), and establishing a recycling system for multifunction devices and copiers, etc. We are conducting efforts to use resources effectively and reduce waste through measures which take into account the total lifecycle of a product, by considering the 3Rs (reduce, reuse, recycle) in the product design, reducing loss at the manufacturing stage, collecting, reusing and recycling used products, and recycling or converting into valuables.
